Vakhrusheva E.U. «Artistic taste»: historic and philosophic aspect

The «artistic taste» as an aspect of man's cognition in the sphere of the beautiful is revealed. Many thinkers and philosophers of France, Germany, Italy and England wrote in their outstanding works about the category «taste». It did not leave philosophers and scientists of classical german school of the 19th c. indifferent. They asked a question why people love and appreciate beauty and why it dominates. In this period of developing philosophic conceptions about the category «taste» the opinion of three philosophers I. Winkelman, I. Kant and G. Hegel are conveyed

Key words: taste, artistic taste, category of taste, the beautiful, conception.

Yarigin N.N. The Soviet state politics regarding the believers in the postwar period

It is analyzed a state policy relative to believers which was pursued rather contradictory. When the war started the government treated believers with obvious indulgences. However when the war was over the state resumed a persecution of believers and very often they were prosecuted. Only after I. Stalin's death, though not immediately, the convicted of religious beliefs were eventually freed. On adopting the party's programmer of building communism the government's persecution of believers restarted and lasted till the middle of the 1980-s.

Key words: orthodox, baptists, gospel christians,
