Koulova M.R. Sociocultural aspects of modernization processes in Republic North Ossetia-Alaniya

It is analyzed the approaches to the modernization process in the Republic of North Ossetia-Alania in the context of the sociocultural realities. It seems appropriate to form the strategy of North Ossetia-Alania, with political and economic blocs and sociocultural priorities. Sociocultural space of North Ossetia fairly developed social networks and specific social capital can be a driver of the modernization process in the North Caucasus region. Further research is needed and the specific sociocultural traditions of the region modernization potential to develop more specific proposals on the most relevant innovation.

Key words: modernization processes, sociocultural aspects of social capital.
