Khakonova I.B. Social insurance for workers of mining companies in southern Russia at the turn of the XIX-XX centuries (organizational and legal aspects).

The article examines the legal aspect of the problem of social insurance of workers of mining enterprises of Southern Russia at the turn XIX-XX centuries. The topicality of the problem in this period is described. It is shown that at the turn of the XIX-XX centuries in the industrial area south of Russia there was very active social insurance for workers, while a significant factor of this process was the initiative activity of public organizations, and above all, the Company's allowance miners in the South of Russia. But in general, in the Russian state social insurance of workers remained in a poor state, and began to improve only after the insurance laws in 1912s.

Key words: social insurance miners, social security, insurance law, civil society formation.
