### **Role of civil society institutions in youth policy realization**

Importance of participation in realization of youth policy in Russia of institutes of civil society is considered. In particular, the reasons of insufficient trust of modern youth for the state institutions which are taking part in implementation of youth policy in Russia are considered. The conclusion about insufficient participation of institutions of civil society in realization of youth policy and about need of increase in volume of such participation that can promote increase of its efficiency is drawn.

Key words: youth, youth policy, efficiency, institute, civil society, state, relation.
