

PHILOSOPHY

Vereschagin O.A.

(Nizhny Novgorod state university after N.I. Lobachevsky (Arzamas branch). Arzamas, Russia)

Topic of post-philosophy

The article is devoted to the analysis of contemporary practices of philosophical reflection. Topic of post-philosophy considered by the author in the context of the development of the principles of post-non-classical rationality. The author considers in detail the circumstances of the formation of alternative practices of philosophical reflection such as potentiology, phenomenology of corporeality, social topology. The article provides a critical assessment of the topological approach to social research. According to the author, the re-actualization of corporeality and bodily practices is the most important trend of modern philosophy.

Key words: decentration, post-philosophy, philosophy of mind, the mind-body problem, the topology of the subject, corporeality, post-non-classical epistemology.
