Subjects of ethno-cultural interaction: social and philosophical context

The article is devoted to the study of the social and philosophical subjects of ethno-cultural interaction. On the basis of a comparative analysis of the scientific definitions the author proposes a working definition of ethnic and cultural interaction in the social and philosophical discourse. Such socio-philosophical categories as nation, ethnic group and national community appear in the form of various social actors. Depending on the area to meet the needs of ethnic, political, industrial and economic, social or spiritual, ethno-cultural interaction is carried out by these entities, taking into account regional peculiarities of legal regulation and the historical experience of ethnic groups.

Key words: ethno-cultural interaction, social community, spheres of society, ethnic and cultural needs, ethnic consciousness.
