Legal regulation problems of adoption institution

It has been carried out the analysis of problems of legal regulation of adoption institution. Legal aspects of procedure of adoption are profoundly considered, necessary conditions for its realization are defined, characteristic of various approaches to the definition of "adoption" is given. The available legal collisions in the current legislation concerning mystery of adoption are analyzed. The offer in exceptional cases to provide adopted, adulthood, right to access to data on adoption and on obtaining exhaustive information on assignment and change of a surname, a name and middle name cannot contradict interests of the adopted himself.

Key words: adoptive parents, adopted, mystery of adoption, adoption institution.
