Problem of spiritual essence of a person in I.Ilyin's philosophy

The article reveals the content of the concept of the spiritual problems of the human personality in the philosophy of I.A. Ilyin. It is considered the interaction between the inner world of the individual and society, a peculiar understanding of a philosophic nature of man, inner spiritual principles manifested in the external experience of the individual. The influence of spiritually-moral education of man in the philosophy of I. A. Ilyin has been studied. As for man's spiritual renewal – faith, knowledge, love, religion, philosophy, the philosopher distinguishes the category of faith and love as the spiritual basis of the human. Only through faith and love one can grasp and comprehend reality. His creative heritage is a pearl of Russian philosophical thought. Ilyin analyzed the questions of the spiritual culture of the individual, human quest for meaning in life, his self-realization.

Key words: morality, spiritual education, spirituality, people, human culture.
