Adjectivization as one of the types of usual conversion (on the basis of Russian and French languages)

Adjectivization in comparative aspect on the basis of Russian and French languages as one of the types of usual conversion is studied. Paradigms of derivational meanings and word-building types which are characterized not only by community and by difference are analyzed, degree of adjectivization productivity is determined. This type of conversion is studied with a viewpoint to the typological characteristics of the Russian and French languages.

Key words: usual conversion, occasional conversion, adjectivization, word-building types, derivational meaning.
