Professional mobility as the most important component of competence of cadets of a military university in modern Russia

The importance of the formation of professional mobility in the structure of the competence of cadets of a military university is obvious, which is associated with the desire of the Armed Forces of the Russian Federation to get an officer capable of effectively performing military and combat missions. The structure of professional mobility includes the key knowledge and skills necessary for the implementation of professional military activities. From the standpoint of modernizing the system of Russian higher education and substantiating a new way of training qualified specialists, the most relevant is the clarification of the structure of professional mobility, the creation of a model for the formation of mobility of cadets of a military university, and the determination of its effectiveness, subject to the necessary certain conditions. The implementation of the competency development program developed on the basis of the professional mobility model is able to provide a demanded military specialist.

Key words: professional mobility, social mobility, personal mobility, model, structure of professional mobility.
