The language factor of globalization

It is discussed various aspects of the disappearance of the Chechen language in the realities of modern times. Based on the analysis of linguistic factors, the question of the linguistic component of the globalization process is considered. It is analyzed the impact of globalization on the development of national languages of small peoples. Examples of negative and positive aspects of the development and functioning of languages in the context of globalization are given.

Key words: space, felt, humanist, agenda, holster, sandpaper, globalization.
