Peculiarities of translation of socio-political texts: lexical level

The specificity of socio-political texts lies in the fact that they play a significant role in shaping public opinion and influencing public policy. The main function is to persuade and attract an audience to support a particular political program or candidate. This study is devoted to socio-political translation, due to the fact that it is one of the most in demand due to the increase in political conflicts in the world, the increased public interest in these events. In addition, in modern conditions, the translation of socio-political texts acts as a means of propaganda and an instrument of ideological struggle.

Key words: socio-political text, translation, political discourse, transformations, lexical units.
