### **Peculiarities of translating English youth slang on the Internet**

Slang, one of the most rapidly changing genres of language, is studied. Slang is present in all spheres of human activity. It changes according to time and space. Slang is influenced by all the changes taking place in society, and not the least role in the formation of slang is played by everything inherent in a certain circle of people, their interests, topics of communication, the nature of their activities. Often the units of slang are words borrowed from other languages or the language of other segments of the population.

**Key words:** slang, Internet, transformations, transcoding, tracing, functional equivalent, descriptive translation.
