The verbalization of concept “LAW” in the scientific legal discourse (based on essays by English-speaking legal scholars)

The verbalization of the concept of “LAW” in scientific legal discourse is analyzed. The lexical means of expressing the studied concept are revealed, and with the help of the obtained data, a scheme of its nominative field is compiled. For the first time, a detailed analysis of the linguistic means of expressing the concept of “LAW” is carried out, and for the first time a linguistic corpus of 90 significant works by legal scholars of the Anglo-American legal tradition has been compiled.

Key words: concept, cognitive linguistics, concept “LAW”, lexical markers.
