Factors of the development of teacher education in Primorsky Krai.

It shows how economic, social and cultural factors affect the decline in the quality of education in the region. The results of a survey of heads of educational institutions are presented, which revealed a shortage of specialists in a number of key subjects, such as mathematics, physics and natural sciences. The main causes of this crisis are highlighted, including low salaries, lack of resources, and high workload for the remaining teachers. The project "Pedagogical Train" is presented, aimed at providing professional guidance and support to young professionals, as well as providing high-quality education for future generations. It is emphasized that the problem of the shortage of teachers in Primorsky Krai requires a multifaceted approach that will unite the efforts of various parties. The necessity of combining the efforts of the state, educational institutions and society to create attractive conditions for future teachers is shown.

Key words: pedagogical education, qualified personnel, Primorsky Krai, lack of teachers, teachers' training.
