### **Patriotic education in the context of digital transformation of modern society**

The article justifies, patriotic education plays an important role in the formation of civic identity and a sense of belonging to one's country. Information technologies, being a powerful tool in this process, make it possible to more effectively convey the ideas of patriotism to young people. A modern society that takes into account digital transformations, based on justice, trust and mutual understanding, can only be created by joint efforts. It takes time, patience and the willingness of all parties to work towards shared goals.

**Key words:** patriotism, citizenship, social consciousness, education, digital environment, public institutions, society.
